So, it was me who had to pretend, who had to just take a pain killer, who had to ignore the pain and doctors.* ***But I'm in my thirties and I'm a woman, and I need to be healthy for my family. That's when you came in and helped me so I can help myself.*** *In 2025 had I 4 doctors' appointments and paid less than $100 for all four visits with prescriptions. I'm going for mammograms, screening for bloodwork, and I feel confident scheduling doctors' appointments. I feel good getting the help I need. Thank you.*
